PREFATORY NOTE.

THE last DUNDEE DIRECTORY was published three years ago, by the Employees of the Post Office. Such a town as this, with its extensive manufacturing and commercial enterprises, can ill afford to want a new DIRECTORY so long. It was this belief, and the numerous enquiries made to them as to a new edition, that prompted the Publishers to enter upon the undertaking which they are now happy to see completed. They were fortunately enabled to secure the co-operation and assistance of Employees in Dundee Post Office who had experience in such work, and without whose aid the publication could scarcely have been carried through; this arrangement being at same time a guarantee for its completeness and accuracy. The Publishers are sanguine that in these latter respects the present DIRECTORY will compare favourably with any of its predecessors. They are in hopes that the "Guide" will be found useful, particularly to strangers visiting the town; and the other prominent new feature in the work, the Plan of the Town and Suburbs—which has been prepared with much care by an eminent artist—supplies a want which was often much felt in former Directories. To all those who have been kind enough to supply information and data for the work, they tender their hearty thanks; and also to the numerous subscribers and advertising friends who have favoured them with their support.

DUNDEE DIRECTORY,

1874-75.

GUIDE TO DUNDEE.

DUNDEE is the third Scottish town in point of population, and the second in point of manufacturing and commercial importance. The number of the inhabitants of the Burgh, including Lochee, is now estimated at 127,000. The following are the census returns for the last eight occasions on which they were made up :—

YEAR.	POPULATION.
1801, ...	26,084
1811, ...	29,716
1821, ...	30,908
1831, ...	45,355
1841, ...	66,232
1851, ...	78,829
1861, ...	91,511
1871, ...	121,975

It thus appears that the population is between four and five times greater than it was at the commencement of the present century. As the town is rapidly extending on all sides, it is expected that when the next census is taken, in 1881, the inhabitants will amount to about 150,000 in number. Some are so sanguine as to anticipate that at a period not very remote the Law will be in the centre of the town, and that the number of people dwelling around it will amount to 200,000.

Dundee occupies a commanding site on the north shore of the Tay. Rising gradually from the Firth, the city, being built with picturesque irregularity, forms an impressive sight when viewed from the opposite coast of Fife. The western and eastern slopes of the town are dotted with handsome villas of modern construction, the residences of the wealthy manufacturers and merchants. Dundee is a thriving seaport—her shipping is extensive, and shipbuilding, both in wood and iron, is carried on with great spirit. But to its manufacture of coarse linen and jute fabrics the town owes its commercial fame. Flax is largely spun and woven; but since the Crimean war the staple of the trade has been jute, a species of textile reed grown in India. The town is reached from the west by the Dundee and Perth branch of the Caledonian Railway; from the east by the Dundee and Arbroath

branch of the same line; and from the south by the northern branch of the North British line. In connection with the latter, a bridge across the Firth is presently constructing, which, when finished, will considerably shorten the journey to Edinburgh. The Tay Bridge is being built on the lattice girder principle, the girders resting on brick columns, and at some points on strong cast-iron pillars. It will consist of 89 spans, varying in width, one on the north shore of 160 feet on iron bow-string girders, while 14 in the centre, over the navigable channel, are no less than 200 feet wide, and with a clear headway of 88 feet above high water; and the total length will be two miles, less eighty yards. There will only be one line of rails, which seems insufficient for the expected traffic; but the work is justly reckoned one of the greatest engineering feats of the day, and reflects high credit on the skill of the engineer—Mr Thomas Bouch, of Edinburgh. The cost was originally estimated at £217,000; but the difficulties the contractors have had to contend with have been so great that that sum will be considerably exceeded before the task is completed.

Swift and well appointed Screw Steamers sail from Dundee to London, Hull, Newcastle, and Liverpool; and in the summer months there is tidal steam service to Newburgh and Perth. The sail up the river is justly deemed one of the most enjoyable in Scotland. At Dundee, the Tay is two miles broad; a little further up it widens to nearly double that breadth, and looks a noble sea reach; but only a third or so of the water is navigable. At low water, the northern half of the Firth is a vast expanse of silt, the disturbance of which, through various causes, has been a fertile source of annoyance and expense to the Harbour Trustees of Dundee.

There are four Wet Docks, named after Earl Grey, King William, Lord Camperdown, and Queen Victoria. The last named is in course of completion, and, when finished, the dock accommodation will reach an area of 35½ acres. Attached to King William dock is a Graving dock, and at the east end of the tide harbour is a Patent Slip for the repair of ordinary sized vessels. A spacious new Graving dock, communicating with the Victoria dock, is also in course of construction, and various other appliances for the trade of the port are being provided. From the commencement of the Harbour works in 1815 up to the present day, the Trustees have spent upwards of £700,000, an outlay which has been amply justified by the large and steadily increasing trade of the port. Between the Earl Grey and King William docks is a broad quay, entering from Dock Street through the "Royal Arch," a structure in the Norman style, designed by Mr Rochead of Glasgow, and erected at a cost of £3000, to commemorate Her Majesty's visit to the town in 1844. Passing down this quay and skirting the roadways around the Tide Harbour, the visitor enters on the East Marine Parade—a favourite promenade, where are situated the shipbuilding yards. The first which attracts attention is that of Messrs Alexander Stephen & Sons, where all sorts of wooden vessels are built, from the bluff whaler to the magnificent Indiaman. Here also are built immense iron screw-steamers intended for the Suez Canal trade. The next yard belongs to Messrs Brown & Simpson, who turn out large and beautifully moulded iron vessels. The next yards,

those of the Tay Shipbuilding Company, and the Dundee Shipbuilding Company, are wholly devoted to the construction of wooden craft. Passing the extensive saw-mills of Messrs John Kirkland & Son, and crossing the caisson gate of the Camperdown dock, we reach the iron shipyard of Messrs Gourlay Brothers & Co., a firm which is famous throughout the world for the beauty and excellence of the steamships they build. Here is occasionally to be seen in course of construction one of those floating Hotels which do the work of the P. & O. Company and other ocean lines. The Camperdown dock is chiefly devoted to the berthing of the large Indiamen which bring the jute to Dundee. It is a fine sight to see a dozen of these noble ships at anchor in the roadstead. An equally animated spectacle is presented to the frequenters of the Marine Parade when the whale ships are departing for their hazardous cruize in high latitudes. The departure of these vessels for the sealing and the whaling is always witnessed by large crowds, and incidents of mingled excitement and amusement frequently arise on such occasions.

The Railway Stations are situated at the eastern and western extremities of Dock Street. From that street the centre of the town is reached by various thoroughfares, the chief of which are Castle Street, where the British Hotel is, and Union Street, at the top of which the Royal Hotel is situated. These are the two principal licensed Inns; while in Reform Street is located Lamb's Hotel, which is one of the best Temperance houses in Scotland. The leading streets of Dundee are Reform Street, which is built on a regular but rather monotonous plan; the High Street, an oblong square, in which the Town House stands; the Nethergate, which communicates with the western and fashionable quarter of the town; and the Murraygate, Seagate, and Overgate. Although there are many elegant detached buildings to be found here and there in Dundee, variety rather than grace is the present characteristic of our architecture. Several new lines of streets are, however, being laid out, and the widening of the Nethergate and Murraygate is shortly to be begun. In the course of time, therefore, there is every prospect that many spacious and handsome structures will arise to attract the attention of the visitor.

To the ordinary Tourist, Dundee is not a very attractive town. "Smoke fills the air and dims the day;" but it must be remembered that that same smoke brings food to many a humble board, and fuel to many a hearth that otherwise would be cheerless. The manufactories of the town are very numerous, and some of the great mills, being built entirely of freestone, and with some pretension to architectural embellishment, are well worth notice by the visitor. The principal works are those of Messrs Baxter Brothers & Co. (Dens Works); Gilroy Brothers & Co. (Tay Works); A. & D. Edward & Co. (Logie Works); J. & A. D. Grimond (Bow Bridge Works); O. G. Miller & Co.; Thomson, Shepherd, & Co. (Seafield Works); Don Brothers, Buist, & Co. (Ward Mills); W. R. Morison & Co. (Wallace Works); Malcolm, Ogilvie, & Co. (Constable Works); Cox Brothers (Camperdown Linen Works, Lochee), &c. &c. Dens Works comprise a number of large buildings, the chief of which has a frontage of 250 feet to Princes Street, is five storeys in height, and is surmounted in the centre by a statue of James

Watt. The works altogether occupy 21 acres of ground—the numerous edifices erected upon which are filled with machinery of the most improved construction, chiefly manufactured upon the premises. In the spinning department there are upwards of 22,600 spindles, with the requisite preparing machinery, while the weaving comprises upwards of 1200 looms. The motive power of this gigantic establishment is derived from 28 boilers, consuming 300 tons of coals weekly, and supplying steam to 22 engines of the combined power of 2850 horses. The hands employed amount to about 4500, a large proportion of whom are females. The firm has long been famed for the immense production and fine quality of the navy sailcloth manufactured at the works; but other classes of goods are made in large quantities, the aggregate production exceeding twenty-five millions yards annually, and comprising bleached and brown sheeting, ducks, paddings, towellings, &c. The late Sir David Baxter, Bart., was for many years at the head of this eminent firm, and it is to his sagacity and enterprise that the celebrity and prosperity it has so long possessed are to be chiefly ascribed. The present managing partners are Messrs Dalgleish & Carmichael. The front view of Tay Works is even more imposing than that of Dens Works. Along the Lochee Road they have a frontage of 1000 feet, the building rising to a height of five storeys in the centre, and four along the wings. A figure of Minerva stands on the pediment. The works are devoted almost exclusively to jute manufactures. Logie Works, belonging to the firm of Messrs A. & D. Edward & Co., and situated at the Scouringburn, have been greatly increased in extent at various periods, and are now of colossal proportions, comprising a mill of 300 feet in length and five stories in height, besides extensive weaving factories and other accessories on a corresponding scale. Heathfield Works, belonging to James Paterson, Esq., may be said to be the cradle of the jute manufacture, the fibre having been early introduced there by the late Mr Neish, and an extensive manufacture of jute carpeting, matting, and rugs, still contines to be carried on there. In Bow Bridge Works, which are models of good arrangement, this branch of industry is also largely carried on; as well as at Seafield Works, and by other minor firms. Camperdown Linen Works, Lochee, is, however, by far the most extensive establishment for the manufacture of jute fabrics. These works extend over an area of 25 acres. The buildings are substantially built, and have no small claim to artistic design. The internal arrangements are so complete that the work is one of the best which a stranger could select for the purpose of studying the various processes by which the raw material is converted into cloth. The chief partner of this firm is the Provost of Dundee, and he and his respected partners deserve great credit for the success with which, in erecting their works, they have combined ornamental detail with practical solidity. The chimney of their factories forms a remarkable and pleasing feature in the landscape. Being 282 feet in height, or almost twice that of the Old Steeple, it is seen for many miles in every direction; and, being built of parti-coloured bricks, after the style of the Italian Campaniles, it seems more a work of art than of prosaic industry. It is square in form for about three-fourths of its height, the upper portion being octagonal. In the basement and cornices stone is employed.

An inner circular casing, 12 feet in diameter, is carried up throughout, and so connected with the exterior walls as to give strength and rigidity to the whole. Upwards of a million of bricks were used in its construction. The weight of materials exceeded 5000 tons, and the cost amounted to about £6000. That, even with this large outlay, the foresight of the firm has been amply justified, by the immunity from the smoke nuisance which half a dozen ordinary chimneys would have created, may be inferred from the fact that the smoke from 58 furnaces, as well as the smoke from the forges, is efficiently disposed of by means of underground tunnels communicating with the one shaft. The motive power of the works is supplied by 22 engines of the aggregate power of 2750 horses—the largest engine being a giant of 100 horse-power. The raw material wrought up exceeds 15,000 tons per annum, and upwards of 5000 persons are employed in the various departments. The Messrs Cox are shipowners as well as manufacturers and merchants, and import in their own vessels a part of the materials they require. They have an establishment on the banks of the Hooghly, near Calcutta, for the storage and shipment of jute; and from the moment the raw material passes by their branch railway into the Camperdown Works every process it undergoes is completed within the gates, until the finished fabric is sent for export to the markets in various parts of the world. The present enterprising proprietors are the fifth generation who have been engaged in the manufacture of linen in Lochee. An ancestor of theirs entered into business as a manufacturer there about the beginning of the last century, and his descendants have continued in it down to the present time. The works of Messrs O. G. Miller & Co. are exclusively devoted to spinning, and comprise five mills. The staple is chiefly flax and tow, and the yarn produced therefrom has a high reputation in the market. One mill is so very much like another that we should only weary the reader by alluding to more than those given above. We may, however, add that Ward Mills, the property of Messrs Don Brothers, Buist, & Co., are presently the most novel in construction. A wing attached to this establishment is being erected in Barrack Street, and gives a finish to the street which it long lacked. When completed, this gives promise of being one of the most handsome mills in the United Kingdom. The gigantic proportions of the building, which occupies the most central position of any mill in town, form a conspicuous feature when viewed from the Post Office or Albert Institute.

The foundries in town are those of Messrs Carmichael Brothers (Ward Foundry); Gourlay Brothers (Dundee Foundry); Robertson & Orchar (Wallace Foundry); Pearce Brothers (Lilybank Foundry); Urquhart, Lindsay, & Co. (Blackness Foundry); W. B. Thompson (Tay Foundry); and C. Parker & Son (Clepington Foundry). The Ward, Dundee, and Tay Foundries are famous for the excellence of their steam engines, boilers, &c., while the speciality of the others is the production of power looms and preparing machinery adapted to the staple manufactures of the town. Ward Foundry was first established by Messrs James and Charles Carmichael, the celebrated engineers. They commenced business here about the year 1810, and soon attained to distinction by the superiority of the various kinds of

machinery they manufactured. In the construction of steam-engines they particularly excelled, and were extensively employed in that department of the business. They made the machinery for the first steamer that ever floated upon the bosom of the Tay, and for most of the Ferry steamers, including the twin boats, introducing one improvement after another as they proceeded. So ingenious and useful were these improvements found to be, that ferry boats of the same construction were built and employed in river traffic, not only in this country but in foreign lands as well. In 1833 they made, for the Dundee and Newtyle Railway, the first locomotives ever constructed in Scotland. In 1829 they invented the fan-blast for heating and melting iron ; and having been freely given to the public, like their other inventions, its great practical utility and economy were soon acknowledged by universal adoption. In recognition of the liberality of the firm in thus giving to the trade an invention which, if protected by patent, would have secured them a fortune, the leading engineers in Glasgow entertained the brothers to a banquet in that city in 1841, and presented them with a handsome service of plate. In appreciation of the talent and generosity of Mr James Carmichael, his townsmen have resolved to erect a bronze statue to his honour. It is now in preparation, and, whenever it is completed, will be placed in a prominent position in Albert Square.

In addition to the saw-mill of Messrs John Kirkland & Sons, already mentioned, there are two similar establishments, owned by Messrs Wm. Kirkland & Son and Mr George Jessiman. The first named is the largest of the two, and does a most extensive trade in prepared timber of all kinds. Among the other industries of the town may be mentioned the extensive leather works of Messrs Henry Henderson & Sons, which are conducted with an intelligent enterprise which promises to make them the most important in Scotland. Dundee is famous for the production of marmalade, and the reputation of Messrs James Keiller & Son has by that delicious confection been spread throughout the world. The works of this firm, situated in Chapel Street, Meadowside, are very extensive, and are exclusively devoted to the making of sweetmeats and comfits of all kinds. The labour is chiefly that of women and girls. There are several shoe factories in the town, the first of which are those of Mr Peter Owler and Mr Charles Stewart. There were once sixty or seventy breweries in Dundee. That trade, however, is now represented by a very limited number, by far the most extensive one being the establishment of Messrs H. Ballingall & Son, whose beverages have a very large sale both at home and abroad.

Few towns of its size and its strictly commercial character possess ampler resources or more general means of enjoyment, both intellectual and physical, than Dundee. For the spiritual wants of the inhabitants there are about seventy churches. Few of these edifices are characterized by great architectural merit. The more modern structures, however, have considerable claim to artistic excellence. The most imposing is unquestionably St Paul's Episcopal Church, situated in a pitiably obscure corner at the head of the Seagate. This church is one of the many successful studies of Sir Gilbert Scott in Gothic architecture, and is surmounted by a noble tower and spire 210 feet high. The interior is very

beautiful—the spacious chancel having elaborately decorated reredos and "storied windows richly dight." In the Nethergate, St Mary's (East or Parish), and the South Churches, which form the nave and transept of the ecclesiastical pile over which towers the ancient Steeple, form a very fine building, the style of which is decorated Gothic. These two churches rose on the ruins of an elder fabric, which was destroyed by fire in 1841. The dignity of the South and East Churches is sadly marred by the mean look of the Steeple Church, which separates them from the ancient Tower. Until recently the historians of Dundee attributed the erection of this massive Gothic tower to a vow of David, Earl of Huntingdon, brother of King William, to build a church to the Virgin on the spot where he should first step on shore after a perilous voyage. The researches of that eminent antiquarian, Mr Andrew Jervise, justifies the assertion that "there is nothing to show that Earl David ever, in the literal sense of the word, founded a church in Dundee." Mr Maclaren, in his recently published history of the town, follows the lead of Mr Jervise, and proves that, as the style of Gothic architecture to which St Mary's Tower belongs was not adopted in Scotland until the fifteenth century, it is absurd to attribute the erection of the tower to a man who died two centuries before. The Old Steeple has been recently restored by Sir Gilbert Scott, who proposes to complete it with the crown of open stone work, by which there is some reason to believe it was once surmounted. Of the other churches a few of those having pretensions to architectural elegance may receive a brief notice. St Mark's, in the Perth road, from a design by Messrs Pilkington & Bell, Edinburgh, is a fine building. It has an elegant spire, and the walls are elaborately ornamented externally. St Andrew's Church, at the junction of King street and the Cowgate, occupies a fine situation. Being now upwards of 100 years old, it has a decayed aspect at present, but it is about to undergo a complete renovation, and will ere long have the appearance of a new edifice. Its spire is 139 feet high, but has rather a clumsy look at top. If its pinnacle were lengthened it would be an improvement. It has three finely-toned bells, which were long considered the best in the town. St Enoch's, Nethergate, is a splendid Gothic edifice, designed by Messrs Edward & Robertson, architects. It has two beautiful towers, each 100 feet in height, with crocketted pinnacles at the angles. It has been profusely ornamented in the interior by London artists, in a style quite unique in this quarter. The side walls are done in imitation brickwork; the ceiling is studded with gilt stars upon a green ground; a representation of the Tree of Life is placed upon the north wall, with the motto "Gloria in excelsis Deo;" and a very tasteful stained glass window gives light to the gallery. The pillars which support the arches are of red granite, finely polished. Of the Free Churches, one of the best is St Paul's, in the Nethergate. It was built in 1852, from a design by Mr Watson, Glasgow. It has a finely proportioned spire, 167 feet high. The M'Cheyne Memorial Church, in the Perth road, is a handsome Gothic erection, by the same architects as St Mark's; but its walls, both externally and internally, are more elaborately ornamented. Its spire is considered to be one of the finest in the town. Albert Free Church is another fine build-

ing, but it is built in the line of the street. and, being contiguous to other houses, is not so effective as it would have been if isolated. The United Presbyterian Churches in the town, though sufficiently commodious, have no architectural eminence. In Lochee, however, a large and handsome building in connection with that denomination has been recently erected, and is highly creditable to the abilities of Mr Maclaren, the architect. Its lofty spire is finely proportioned, and it has a peal of eight bells of very musical intonation. A new Church is in course of erection in Brown Constable Street, according to a very ornate design. There are six Independent Chapels, of which Ward Chapel, a fine building in decorated Gothic, is the best. It was erected during Dr Russell's incumbency. Two neat Methodist Chapels—one in Ward Road, and the other in Wellington Street—are both after designs by Mr Maclaren. The Catholic Apostolic Church, in Constitution Road, is a large Gothic structure. It has no great pretensions to exterior ornament, but the interior is highly and tastefully decorated. The Roman Catholics have four large Chapels—St Andrew's, in the Nethergate; St Mary's, at Forebank; St Joseph's, Blackness Road; and a Chapel in Lochee. St Andrew's is a fine Gothic building. St Mary's is remarkable for its size, and is said to afford accommodation to three thousand people. The Lochee Chapel, which is a fine building, is in the Gothic style. Its walls are composed of courses of very small stones, which must have added considerably to the cost of its erection, which is said to have been £7000.

There are now few buildings of historical interest in the town. The exigencies of an increasing population have swept away many tenements which recalled those stirring periods in Scottish annals which marked the pre-Reformation era. Closes there are still, occupied by a squalid and unhealthy population, which in name remind the visitor that Roman Catholicism was once the religion of the country, and that Dundee had many buildings for the accommodation of the religious. St Clement's and St Roque's lanes, St Margaret's and St Salvador's closes represent the sites of ancient chapels; while the Lady Well spring reminds us that there was a time when Scotsmen approved of the cultus of the Virgin Mary. It is not long since the buildings which sheltered the nuns of St Clare were swept away to make room for new tenements, recently erected between the Overgate and Bank Street. Whitehall Close in the Nethergate was once the site of a palace occasionally occupied by the Scottish kings. There is an old building standing between Fish Street and Butcher Row which was used as the Custom House for some time. This ancient tenement is alluded to by Grant in his novel entitled, "The Yellow Frigate," and bears many indications of having once been a baronial mansion. Part of it is now occupied by a china and glass merchant. The East Port, a mouldering old gateway at the east end of the Cowgate, is now the only structure which reminds us that Dundee was once a fortified city. When the plague visited Dundee, three hundred years ago, George Wishart, the Reformer, and the victim of Cardinal Beaton, preached from the summit of this archway to the woe-stricken people, or, as some maintain, from one a short distance to the westward. On a com-

manding site in front of the Law stands the ancient Castle of Dudhope, formerly the residence of the Scrymgeours, hereditary constables of Dundee. This building was once used as a woollen mill, and is now devoted to the accommodation of such infantry soldiers as may be stationed in the town.

Passing up Reform Street the visitor finds himself in Albert Square, in the centre of which is a noble Gothic pile erected to the memory of Prince Albert, and named the Albert Institute. Originally, the Albert Institute comprised only the western portion of the building which is surmounted by an elaborate fleche. In the lower portion of this part of the structure the Free Library of the town was accommodated, while the upper storey, which is approached by a curved staircase, was used as an assembly room. The literary treasures of the Library having accumulated rapidly, the Directors resolved, with the consent of the joint-stock company who built the main portion of the building, to add a new wing from a design by Mr Mackenzie, a local architect, who was so successful in amalgamating the new work with the old, which had been designed by Sir Gilbert Scott, as to gain the high approval of that distinguished architect. In this new wing, the Free Library Museum is at present located.

Among the miscellaneous buildings of Dundee worthy of notice are the Royal Exchange in Albert Square, a Gothic structure, with an unfinished square tower. The ground upon which this building is erected is of a boggy, yielding nature. The architect having used concrete instead of piles for the foundation, the building has sunk considerably from its proper level, dragging with it an adjoining house, which leans against the Exchange at rather an alarming angle. To the south of the Albert Institute stands the Eastern Club, a very handsome building, replete with all the luxuries proper to such establishments. To the west is situated the Post Office, a plain but commodious building, erected in 1862 from designs by Mr Matheson of the Board of Works. In an additional wing, built after the transference of the telegraphs to the Post Office, accommodation is provided for the telegraphic business of the town, which both to inland and foreign stations is very extensive. At the north-west corner of the Albert Institute stands a statue, by Steell of Edinburgh, of the late George Kinloch of Kinloch, who was the first Member for Dundee in the Reformed House of Commons, and who was forced to expatriate himself in consequence of his consistent advocacy of popular rights. The Town House, which stands on the south side of the High Street, belongs to the Palladian phase of classic architecture, and was erected, in 1734, from designs furnished by William Adam, a fashionable architect of that time. The internal accommodation of the original structure was recently found to be insufficient for the business of the town. There was some talk of erecting a new Town Hall and municipal buildings on a handsome scale, but nothing came of it beyond the provision of a plain block of offices behind the present building. The Sheriff Court Houses, situated in West Bell Street, form a chastely designed range of buildings, comprising a central portico and wings in the Tuscan style. Here the Circuit Criminal Courts are held in the spring

and autumn. The Prison and Police Office, which adjoin, are after the same design, and have been declared unsuitable to the modern requirements of jail discipline. The Custom House Buildings, in Dock Street, consists of a bold tetra style portico, of the Ionic order, elevated on an arched rusticated basement, surmounted by a pediment charged with the royal arms, the cornice of the order, as also the rustication of the lower storey being continued on the front of the right and left wings.

The Infirmary stands in an elevated position, adjoining the Barrack Park, and is an elegant structure in the Tudor style, arranged internally on the corridor system. This hospital is very well managed, and the patients are treated with great skill and kindness. To the eastward of the town is situated the Royal Orphan Institution, a fine new and commodious building, erected at a cost of about £6000, and giving board, clothing, and education to seventy orphan children. Under the judicious management of Mr and Mrs Peddie, the pupils who have been trained here have hitherto turned out well. The Deaf and Dumb Institution is accommodated in a neat and commodious building, pleasantly situated on the western slope of the Law above Logie Den. About thirty children of both sexes receive instruction here, and the general management reflects the highest credit on Mr and Mrs Drysdale, under whose care the institution has been for many years. A pleasant feature in connection with this establishment is the pleasure old pupils have in returning to enjoy the companionship of their instructors, and these reunions are looked on with great interest by many of our leading citizens. The Blind Asylum in Dallfield Walk deserves attention and support for the excellence of its management, and its efforts to provide the poor blind with the means of earning an honest livelihood. This institution chiefly owes its origin to the liberality of Mr and Mrs F. Mollison, who have largely extended the premises. The Lunatic Asylum, situated at the top of Albert Street, is also a well-managed institution, but the buildings are now unsuitable to its purposes. The Industrial Schools, in the Ward Road, will well repay a visit. They do for destitute children of both sexes what the "Mars" training ship in the river does for neglected boys, and the work of both ship and school should be considered in succession. To these excellent Institutions many poor lads and lasses owe Christian training, wholesome discipline, and the capacity of becoming useful members of society.

There are a very large number of Mortifications devoted to the education of poor children in Dundee; but there is only one institution of the monastic class for the education and maintenance of youth. This is the Morgan Hospital, built and maintained by a legacy bequeathed by Mr Morgan, a native of Dundee, who amassed a large fortune in India. The Hospital is a handsome building in the French Gothic style, erected at a cost of £24,000. Under the excellent management of Mr D. W. B. Mitchell, the Governor, this Institution has acquired a very high reputation as a training establishment. In appearance and manners the boys (of whom a hundred are clothed and lodged) have quite the tone which is imparted by the best public schools, and it is satisfactory to learn that they are eagerly sought after as apprentices to various trades and professions. The High School of Dundee has long

deservedly borne the reputation of a high-class seminary. The teachers are all men of superior position in their profession, and the control of the establishment is vested in a board of Directors nominated by various public bodies. The building consists of a façade 227 feet in length, with a hexastyle Grecian Doric portico in the centre, flanked by wings which have been added to from behind as necessity required. The High School occupies a fine site at the north end of Reform Street, and was erected in 1833.

An institution well worthy of notice is "The Young Men's Christian Association. This institution mainly owes its origin to the Christian philanthropy and intelligent energy of Mr David Robertson, late of the firm of Moon, Langlands, & Co.; and it is gratifying to find that the respectable young men of the town have so much appreciated the objects of its establishment, that it promises to become one of the most prosperous institutions of the kind in Scotland. The building, which is situated in the Constitution Road, immediately to the north of Ward Chapel, contains reading rooms, class rooms, and a lecture hall. Extra accommodation is soon to be provided for the various classes, &c., a sum of upwards of £5000 having recently been subscribed for that object. The Working-Men's Club in Tay Street is also an interesting institution. This building, which was purchased and endowed by the liberality of Mr George Armitstead, late M.P. for the Burgh, contains well-furnished rooms for dining, billiards, smoking, card and chess playing, and a comfortable hall for the delivery of lectures.

There are two daily papers in Dundee. There is first the *Dundee Advertiser*, which, although not the oldest daily, is the oldest newspaper. It exercises a powerful influence in both municipal and imperial politics. From the same office is issued a weekly paper, the *People's Journal*, also the *People's Friend*, a miscellany of popular literature. A visit to the machine-room where these journals are printed, will be found highly interesting. The *Advertiser* and the *People's Journal* are printed upon one of the large sized Hoe machines, and recently a new machine, which prints on an endless web of paper, has been specially set up for the *People's Friend*. The *Advertiser* premises are of recent erection, and have quite a palatial appearance. The *Courier and Argus*, the other daily, published at a halfpenny, has a very extensive circulation, and exercises a large influence on public opinion. From the same establishment are issued the *Northern Warder*, a bi-weekly paper; and on Saturday the *Weekly News*, a large penny newspaper, having also an extensive circulation. The new office of the *Courier and Argus* is a model building for a newspaper and printing business. In addition to the other machinery there has been recently erected a machine of great power and expedition by Messrs Dawson & Sons, Otley.

Dundee is well supplied with banking establishments, of which there are no fewer than ten. Of these the Bank of Scotland, the British Linen, the National, Union, and Royal Banks, and the Savings Bank, occupy buildings specially erected for them. The British Linen Bank, situated in the Murraygate is of recent erection, and a very handsome building, the lofty dome and tile flooring having a striking and pleasing effect. The

Clydesdale, Commercial, City of Glasgow, Aberdeen Town and County, and North of Scotland Banks find accommodation in premises which have been adapted to banking business. The Clydesdale Bank is presently accommodated in the Trades Hall; but a new and handsome building is being planned, and is to be erected at the south-west corner of the Murraygate, the widening of which street is part of the general improvement scheme now in course of execution by the Police Commissioners.

The merchants of Dundee have long been distinguished for the peculiarity of transacting their business in the street. That portion of the Cowgate which extends from Murraygate to St Andrew's Street was for generations the chief mart for the staple goods of the town. The merchants and manufacturers thronged the pavement and the causeways chaffering over their bargains. This practice no doubt arose from the lack of a regular exchange; but such is the force of habit that the practice continues to the present day in spite of the erection of the Royal Exchange. The authorities some time ago determined to clear the Cowgate of the barterers; but finding that the tendency to buy and sell in the street was not to be overcome, they agreed to set apart the north side of Albert Square and a portion of Panmure Street as the meeting place on Tuesdays and Fridays, all vehicles on these days being prohibited from using the thoroughfares above named while the market lasts. The Corn Market is held on the High Street on Fridays, although the Kinnaird Hall in Bank Street was originally erected to accommodate the farmers. The Cattle Market is situated at the rear of the Prison, and here the dealers meet on Tuesdays. Plans, however, have been prepared for the construction of a Cattle Market and Abattoirs to the eastward of the town.

For public meetings, concerts, &c., the town is tolerably well supplied with halls. The chief is the Kinnaird Hall, Bank Street, the erection of which was due to the efforts of Lord Kinnaird to provide the farmers with a place of business; but, as already indicated, it was not sufficiently appreciated by them, and is now chiefly used for concerts, balls, fancy fairs, panoramas, and public meetings. It can seat comfortably from 2500 to 3000 people. Then we have the Thistle Hall, the Albert Institute Hall, Albion Hall, Union Hall, and the hall of the Forfar and Kincardine Masonic Lodge, all available for similar purposes. The Drill Hall, erected in 1867 for the instruction of the various corps of volunteers, is situated in Bell Street, has immense floorage, and is occasionally used for horticultural shows and other exhibitions requiring much space. In 1867, during the visit of the British Association, there was an exhibition of pictures in this hall, which was second to none ever witnessed in Scotland. The town possesses a neat Theatre, which is situated in Castle Street, and conducted with considerable spirit.

Well appointed omnibuses ply in Dundee between the Post Office and Windsor Street every twenty minutes. There are also omnibuses to Lochee every half-hour, and in course of time the introduction of tramways between the eastern and western suburbs may be expected.

The Public Baths, situated to the south of Earl Grey's Dock, are the property of the Harbour Trustees, and comprise all sorts of appli-

ances for ablution in hot and cold water, from the shower to the swimming bath. The Turkish or hot air bath has not yet been adopted in this establishment, although one is much desired by the medical profession.

There are many fine walks around Dundee, and the public Parks are not surpassed by any in the kingdom. The Baxter Park, which is the gift of Sir David Baxter and his sisters, was acquired at a cost of £30,000, exclusive of the expense of ornamentation and maintenance. This pleasure ground is very tastefully laid out. A large portion is kept in grass and used as a cricket ground. The Balgay Recreation Ground, which was opened in 1871, was provided at the expense of the community, and is one of the most romantic pleasure grounds it is possible to conceive. The hills upon which this Park and the Cemetery which is attached to it are laid out, are bounded by a carriage road 25 feet wide, and the Cemetery is divided from the pleasure ground by another carriage road, crossed by an elegantly designed bridge of 100 feet span, and 60 feet high. There are two neat lodges, one at the south entrance to the Park, and the other at the north entrance to the Cemetery. The grounds are approached by three routes: on the south, from the Blackness Road, which has recently been considerably widened and improved; on the north, from Ancrum Road; and on the west, from Hillside Road. The Baxter Park is typical of the refined influence of landscape gardening, while on Balgay Hill you find "shadows brown that sylvan loves," accompanied by ornament. In this agreeable resort you are surrounded by fine scenery, fresh air, and have seats placed at intervals. Nature has provided the hill and the wood, and the gardener has furnished terraced walks and gravelled paths, from which, as you ascend, charming views of hill and water spread out before you far as the eye can reach, vistas having been cut wherever the landscape offered the finest effects. On one side the purple crests of Schiehallion and Ben Lawers meet the gaze; to the east you can descry the Bell Rock, Largo Law, and Fifeness; on the south the Lomond Hills rise to view; and on the north the vision ranges over the Sidlaws to Mount Blair and the hills above Glenshee. When the people are set free from the fret and fume, the dust and sweat, the mental and bodily wear and tear of their city trades and domestic cares, you find them here or in the Baxter Park, well dressed and thoroughly decorous, happily enjoying themselves on the fine evenings in spring, summer, and early autumn. The Eastern Necropolis, which is the property of the town, and the Western Cemetery, which belongs to a joint-stock company, are also very prettily laid out, and are popular places of resort. The Eastern Necropolis and the Baxter Park are approached by the Arbroath Road, which is a very fine rural avenue, lined with rows of stately trees, the foliage of which in summer affords a delightful shade to the pedestrian. The Magdalen Green is also a healthy recreation ground, much frequented by cricketers and townsmen seeking mild exercise and the free river air. Those who are capable of severer efforts will find in the wide panoramic view to be seen from the summit of the Law an ample reward after a climb of 571 feet. The view from thence being superior even to that of Balgay Hill, makes it a favourite resort of the in-

habitants. On its eminence are the remains of a fortified post, and it is supposed that the hill was once the site of a castle, from which Alpin, King of Scots, beheld the defeat of his army by the Picts in the valley where the suburb of Lochee now stands. The Barrack Park, a grassy expanse behind Dudhope Castle, is much used by the athletic youth of the town and as a training ground for the regular troops, and the volunteers. Of the latter there are three separate corps in the town, and their martial bearing and efficiency have been highly commended by the military representatives of the Government. To the antiquary, a most interesting place of resort is "The Howff," an old burial ground disused for some years. Here are many quaint epitaphs, a collection of which will be found appended to Maclaren's "History of Dundee." There is a cemetery on the west side of the Constitution Road which is called in contradistinction to the Howff, "The New Burying Ground," but which has also ceased to be used for general sepulture. The walks here are pleasantly laid out, and the place is much frequented by old people and nurserymaids in charge of children. To the north of this cemetery and on the same side of the street is an excellent Bleaching Green, which only lacks easier access to be more generally useful. As it is, it is extensively used by the inhabitants whose houses are situated in the northern slope of the town, and it serves with the Barrack Park to secure the salubrity of the public hospital. A Marine Esplanade, running from South Union Street on the eastward to the Magdalen Green on the westward, is in course of completion, and will be esteemed a very great boon by the inhabitants.

Broughty Ferry, four miles to the east of Dundee, was formerly a fishing village, and contains still a considerable population of fishermen, but it has grown so rapidly of recent years by an influx from Dundee, especially of the better classes, that the character of the place is entirely changed. A few years ago it was made a Burgh, and has now a chief magistrate and other officials. It contains numerous beautiful villas, the homes of our merchant princes, in which, as recent exhibitions in Dundee have testified, are to be found many beautiful proofs that commerce munificently encourages art. The Castle of Broughty, which long stood a ruin, is now restored, and occupied by a small artillery garrison.

On the opposite shore of Fife the village of Newport is rapidly becoming a fashionable suburb of Dundee. Steamers ply on the Newport Ferry every hour from 6 A.M. to 10 P.M. This Ferry was recently acquired by the Harbour Trustees of Dundee, who, it is expected, will do much for the convenience and comfort of the numerous and ever-increasing body of passengers.

MUNICIPAL WARD BOUNDARIES

AND THEIR COUNCIL REPRESENTATIVES.

WARD FIRST.—On the east by the eastern boundary of the burgh; on the south by the river Tay; on the west by a line commencing at the top of Castle street, and thence southward along Castle street to Dock street and thence southward to the Victoria arch at the harbour of Dundee, and thence through the centre of said arch in a straight line southward to the river Tay; and on the north by Murraygate, Cowgate, King street, Princes street, and the Dundee and Arbroath turnpike road to the eastern boundary of the burgh.

Council Representatives—William Robertson. George M'Farlane, and David Jobson, jun.

WARD SECOND.—On the south by the river Tay; on the east by the western boundary of Ward First; on the west by the western boundary of the burgh and on the north and north-west by a line commencing on the Dundee and Invergowrie turnpike road, commonly called the Perth road, where said road intersects the municipal boundary, and from thence running east-ward along the said road and the Nethergate and High street to the top of Castle street.

Council Representatives—James Allan, William Brownlee, and Alexander Smart Drummond.

WARD THIRD.—Commencing on the road from Dundee to Coupar Angus, commonly called the Lochee road, at a point thereon immediately opposite Logie farm steading where an unnamed road leading off said Lochee road to the Lawside road begins, and from thence running along said unnamed road to said Lawside road, and from thence northward along said Lawside road to the Loons road, and from thence westward along said Loons road to the King's Cross road, and from thence northwards and around the Lochee area, added to the burgh under the Acts twenty and twenty-first Victoria, chapter seventy, and twenty-fourth and twenty-fifth Victoria, chapter thirty-six, till such area strikes the previously existing municipal boundary at the junction of Gibb's lane with Ancrum road, Lochee, and from thence south-eastward in a straight line to the point in Lochee road where the boundary now described commenced.

Council Representatives—James Cox, John M'Lean, and John Robertson (Lochee).

WARD FOURTH.—On the east by the eastern boundary of the burgh; on the south by the northern boundary of Ward First; on the west by the Wellgate and Hilltown; and on the north and north-east by Ann street of Maxwelltown, to its junction with the roadway of Hillbank road and Cotton road, and from thence along said roadway to Laing street, and from thence along Laing street and Dura street and continuation thereof to the Pitkerro turnpike road, otherwise Stobswell road, and from thence along said road to the north-easterly boundary of the burgh at Stobsmuir.

Council Representatives—David Petrie, John Robertson, and Peter Kerr.

WARD FIFTH.—On the south and south-east by the northern boundary of Ward Fourth from the eastern to the western termination thereof, and from said western termination crossing the Hilltown to Rosebank street, and from thence along Rosebank street to the junction thereof with Constitution street, and from thence along Constitution street to its junction with Somerville place; on the

west by the road leading from the top of Constitution road northward along the west side of Stirling's park and the east side of the Law until it reaches the northern boundary of the burgh; and on the north and north-east by the north north-east boundary of the burgh to the north-easterly point of said boundary and at Stobsmuir.

Council Representatives—Peter Moir Cochrane, Charles Edward, and James Foggie.

Ward Sixth.—Commencing in Constitution road at the junction of Constitution street with Somerville place, and from thence running eastward along Constitution street to Rosebank street, and from thence running south-eastward and eastward by Rosebank street to the Hilltown, and from thence running southward by the Hilltown, Wellgate, Murraygate, High street, and Nethergate, to the point where Tally street joins the Nethergate, thence running northwards by Tally street, Barrack street, and Constitution road to the point where it commenced.

Council Representatives—James David Grant, George Hall Nicoll, and Frank Henderson.

Ward Seventh.—On the east by Tally street at its junction with the Nethergate and along Tally street, Barrack street, Constitution road, and the road leading from the top of Constitution road northward along the west side of Stirling's park and the east side of the Law until it reaches the northern boundary of the burgh; on the north by the northern boundary of the burgh to the eastern termination of Ward Third on said boundary; on the west by and along the easterly boundary of Ward Third to Lochee road; and on the south-west and south along Lochee road, North Tay street, and South Tay street, to its junction with the Nethergate, and thence eastwards along the Nethergate to the point where it commenced.

Council Representatives—Thomas Laidman Parker, William Cleghorn, and William Thomson.

Ward Eighth.—Commencing in the Overgate between South Tay street and North Tay street, and from thence running along North Tay street to its junction with Lochee road, and from thence along Lochee road to the commencement of the boundary of Ward Third before described, and from thence westward by and along the southern boundary of Ward Third to the junction of Gibb's lane with Ancrum road, Lochee; and from thence southwards and along the western boundary of the burgh to Blackness road, and from thence along Blackness road to its junction with Scouringburn road, and from thence along the Scouringburn, West port, and Overgate to the point in the Overgate where it commenced.

Council Representatives—Peter Gray, Henry M'Grady, and Hugh Ballingall.

Ward Ninth.—Commencing on the west boundary of the burgh in the said Dundee and Invergowrie turnpike road, commonly called the Perth road, where such boundary is intersected by said road, and from thence running eastward along said road and the Nethergate to the junction of the Nethergate with South Tay street, and from thence running along South Tay street to its junction with the Overgate and West port, and from thence running westward along the Overgate and West port to the Scouringburn road, and from thence running along the Scouringburn road to its junction with the Blackness road and along the Blackness road to the western boundary of the burgh and from thence running down said western boundary to the point where it commenced.

Council Representatives—Alexander Hay Moncur, Duncan Macdonald, and Alexander Smith.

HACKNEY CARRIAGES.—Abstract of Bye-Laws enacted by the Commissioners of Police for regulating Hackney Carriages. STANDS:—

1. On the High street, in front of the Town House.
2. On the Nethergate street, betwixt Tally street and South Lindsay street.
3. On Nethergate street, in front of St Paul's Free Church.
4. On Meadowside, opposite the Old Burying Ground.
5. On West side of South Union street.
6. On the South side of East Dock street, at the West end of the Railway Station.
7. On Victoria Dock Quay, at the East end of the Custom House.
8. On the North side of Cowgate, immediately to the East of its junction with King street.
9. In the area in front of the Sheriff-Court Buildings.

FARES:—The following and no higher fares shall be charged:

For any distance betwixt the High street stance, or the Meadowside stance, and any place within the area embraced within the Lilybank tollbar and Taybank gate on the east, Blackness and Logie tollbars on the west, and Dudhope terrace, Somerville place, head of Bonnethill, and Stobswell (at crossing of Forfar and Murroes road, Lunatic Asylum), on the north,—One Shilling: And should any Hackney Carriage be engaged at any stance or place other than either of the two before mentioned, the fare shall be only One Shilling for any distance traversed within the said area, if not more than from either of said stances. The fare shall also be One Shilling within the following circuit wheresoever within such circuit the carriage may be engaged:—namely, within a circuit commencing at the foot of Shepherd's loan (Magdalen yard), and passing by Shepherd's loan to the junction of Hawkhill and Perth road, and thence by Hawkhill and Annfield road, Cherryfield and Scouringburn, to the junction of Milnbank road and Polepark road, and thence to Dudhope Free Church at the junction of Lochee road and Polepark road, and proceeding by Dudhope house, Dudhope terrace, Somerville place, Constitution street, Rosebank street, Ann street, Cotton road, Laing street, and Dura street to Brown Constable street, and thence by Lyon street, Raglan street, and Lower Lilybank to Broughty Ferry road, and terminating on said Ferry road at Springhill or Carolina port.

In cases to which neither of the rules prescribed in the immediately preceding article may be appliable, the following shall apply,—viz: From any place to any other place within five miles from the General Post Office of the burgh, if not more than a mile, One Shilling; and for each additional half-mile, and also for any part of a half mile, Sixpence additional.

The foregoing fares to apply to cases where the number of passengers does not exceed four. If five passengers are carried, Sixpence extra, irrespective of mileage or distance, may be charged. In the case of children under twelve years of age, two are to be reckoned and charged for as one adult.

When engaged by the hour in shopping or calls, the fares shall be, per hour, Two Shillings; and when engaged by the hour in pleasure or country driving, Two Shillings and Sixpence (besides tolls).

When required to ply after eleven o'clock p.m. to twelve o'clock p.m., a fare and a-half to be charged; after twelve o'clock p.m. to five o'clock a.m., double fares; after five o'clock a.m. till six o'clock a.m., a fare and a-half to be charged.

Luggage not exceeding in weight 100 lbs. shall be taken free of charge; above that weight it shall be liable to a charge of Sixpence extra.

Half fares to be charged for returning by the same carriage (when not engaged by time), but the carriage not to be detained beyond fifteen minutes, unless by agreement.

If a carriage be required to take up two or more parties at different places, or to go out of the ordinary route betwixt two places, Sixpence extra may be charged.

When a carriage is called, but not used, a charge of Sixpence shall be allowed if the place to which it is called be under half a mile from the nearest stand, and One Shilling if beyond said distance.

MORTIFICATIONS.

Bailie William Roger's—1658.—Ten boys receive each one suit of clothes and £4 yearly, and education at a Sessional School, also £3, 6s. 8d. as an apprentice fee, one half paid at the commencement, the remainder on completion of his apprenticeship. Capital, £1,400, and a superiority, value £18, 2s. per annum. Patrons, the Kirk-Session. Factor, John Miln, Savings Bank.

Miss Euphan Graham's—1766.—Two female bursars receive £2 per annum, and education at a Sessional School. Capital, £200. Patrons, the Kirk-Session Factor, John Miln, Savings Bank.

Mrs Margaret Hughes'—1825.—One poor girl (names of Kirkcaldy and Patullo preferred), receives £2 per annum, and education at a Sessional School, from the age of six to twelve years. Capital, £130. Patrons, the Kirk-Session. Factor, John Miln, Savings Bank.

Mrs Euphan Mann or Roger; or the Poor Widow's Fund—1663.—Twenty-eight poor widows, above 60 years of age, receive 6s. per month. Capital, £2,300, and a superiority, value £10 per annum. Patrons, the Kirk-Session. Factor, John Miln, Savings Bank.

Charles Anderson's, or Old Man's Fund.—1820.—Twelve old men, above 60 years, receive 6s. monthly; and half the free revenue paid annually to the Indigent Sick Society. Capital, £2,269, 6s. 9d. Patrons, the Kirk-Session. Factor, John Miln, Savings Bank.

GILBERT GUTHRIE'S—1674.—Thirty-two poor boys receive £2, 6s. 8d. annually, with education at a Sessional School, and five receive education only. An apprentice fee of £3, 6s. 8d. paid to those who learn trades. Capital, £1,400, and feu-duties amounting to £104, 6s. 9d. Patrons, the Magistrates and Kirk-Session. Factor, John Miln, Savings Bank.

THOMAS SMITH THOMSON'S FUND FOR OLD MEN—1862.—Four old men, above 60 years, receive 6s. monthly. Capital, £450. Patrons, the Kirk-Session. Factor, John Miln, Savings Bank.

DR JOHN BROWN'S—1768.—Twenty-five boys or girls receive each £5 per annum, and education at a Sessional School; also, £8 as an apprentice fee, one half paid at the commencement, and the remainder on completing the apprenticeship. Capital, £4,400. Patrons, the Magistrates and Kirk-Session. Factor, John Miln, Savings Bank.

CAPTAIN JOHN RAMSAY'S—1774.—Three boys, named Ramsay, the sons of seamen or brewers, receive £4 yearly, and education at a Sessional School. £4 to be paid for preaching of a sermon on the Wonders of Divine Providence. Capital, £550. Patrons, the Magistrates, the Dean of Guild, Town Treasurer and Clerk, and the Ministers of St Mary's, the Murraygate, and Overgate Districts, and five Capital Members of the Kirk-Session. Factor, John Miln, Savings Bank.

DR WILLIAM GUILD'S—1656.—The interest of a sum equal to £350 is applied to the maintenance of a bursar at the United College, St Andrews. Patrons, the Town Council. Factor, the Town Chamberlain.

JAMES CONSTABLE'S—1821.—The interest of about £2,900 is annually applied for the education of as many boys as it will maintain at £8 each. Patrons, the Provost, Dean of Guild, and Parish Minister. Factor, Robert C. Walker, solicitor.

JAMES LOUDEN'S—1854.—The proceeds of the Mortifier's property, amounting to £650, was invested in 1854. The interest, subject to the payment of two annuities of £5 each, is applied, one half in support of the Dundee Infirmary, and the other half is added to the principal till said principal is sufficient to meet the whole expenditure of that Institution. The bequest is under the management of six Trustees. The Testator states that it is "his intention to provide a permanent and perpetual revenue, applicable to the support of the Dundee Infirmary, and that he, therefore, prohibits and forbids the Directors, or any one else, from encroaching on the annually accumulating capital." Factor, John Miln, Savings Bank.

GEORGE BRUCE'S—1738.—To maintain the Mortifier's Library, and to educate a boy named Bruce, Gray, or Duncan, or the son of any indigent burgess of the burgh of Dundee, for six years at the Grammar School. The Patrons resolved some years ago to assume an additional bursar. The Stock of this Mortification is about £400 sterling. Patrons, the Provost, Dean of Guild, Ministers, and Senior Master of the Grammar School. Factor, Robert C. Walker, solicitor.

WILLIAM STIVEN OR STEPHEN'S—1720.—The interest of nearly £2,200 is annually applied to the education and maintenance of eight boys of the name of Stephen or Garden, or sons of decayed merchants. Patrons, the Provost, the Minister of St Paul's Established Church, Dundee, and the Lairds of Blackness and Dunnichen. Factor, William Kerr, solicitor.

WEBSTER, SPEID, WATT, AND JOHNSTON'S—1840.—The interest of £5,000—now increased to £6,000—applied in annuities to blind men and women, and in educating blind boys and girls: failing whom, to boys and girls having their

sight, but always limited to the names of "Webster, Speid, Watt, and Johnston." Patrons, the Provost, Sheriff-Substitute, Parish Minister, Dean of Guild, and Convener of Nine Trades. By a supplementary Fund given by the late James Guthrie Davidson, Esq., amounting originally to £5,000, and increased by his Deed of Settlement to £6,000, the benefits of this charity are extended to blind men, women, and children, of other names than the above of whom the Trustees may approve. Factor, W. Thoms.

OGILVIE'S HOSPITAL AND MORTIFICATION FOR JUVENILES—1808.—The present amount of the Stock is about £9,000. By the will of the Mortifier, the trust is not to come into operation until one hundred years after the death of the Mortifier, which took place on the 19th April 1825. Patrons, the Kirk-Session. Factor, W. Thoms.

GEORGE WEBSTER'S—1839—The interest of £105 is applied towards the education of fourteen or fifteen children at the Sessional Schools. Patrons, the Provost and Bailies. Factor, the Town Chamberlain.

ALEXANDER WHYTE'S—1799.—Twenty-eight boys or girls (seamen's children preferred), receive £4 annually, and education at a Sessional School for five years. Boys that learn a trade may receive an apprentice fee of £8. Also, £10 per annum "for encouragement of Sunday Schools in Dundee, and for defraying the expenses thereof." Capital, £3,600. Patrons, the Kirk-Session. Factor, John Miln, Savings Bank.

REV. DAVID FERGUSON'S—1695.—The interest of nearly £3,800 is applied to the education and maintenance of two boys as bursars (the name of the Mortifier being preferred), at the Grammar School of Dundee till fourteen, and afterwards for four years at the University of St Andrews, if they desire, and show themselves apt for learning. Patrons, James Webster of Balmuir, and the Provost of Dundee. Factor, William Kerr, solicitor.

MRS GIBSON'S.—The interest of £100 is applied for the preaching of a sermon yearly against cruelty to animals. Patrons, the Provost, Dean of Guild, Parish Minister, and the first Master of the Academy. Factor, the Town Chamberlain.

JAMES PULLAR'S—1804.—The sum of £3,000 affords annually £10 to the Infirmary, £5 to the poor of the Nine Trades, and £5 to the poor of the Parish. The remainder of the annual rent being for the maintenance and education of ten poor boys, and the support of ten old men and women. Patrons, the Minister of the Overgate district, twenty members of Kirk-Session, Convener and Deacons of the Nine Trades, and their immediate predecessors in office. Factors, Rollo & Hendry, solicitors, 32 Bank Street.

MISS JANET HENDERSON'S—1848.—The Stock is £1,500. Fifteen old women each receive an annual allowance of £5 from the revenue. Menial servants are strictly prohibited, by the Mortifier's will, from sharing in the benefits of the trust. Patrons, Rev. Dr Watson, Rev. James Ewing, Patrick Anderson, and John Henderson. Factors, Rollo & Hendry, solicitors, 32 Bank Street.

GEORGE MARSHALL'S.—The interest of £500 is divided annually among five old seamen who have served in the Royal Navy. Patrons, the Master and Committee of the Trinity House, Dundee. Factor, James Hunter, jun., solicitor, 5 Reform Street.

JOHN LAWSON'S—1728.—The interest of 2,000 merks Scots, or £111 sterling, is applied to the maintenance of one bursar, of the name of Lawson or Gray, at St. Andrews. Patrons, the Town Council. Factor, the United College of St Andrews or their Factor.

JAMES WEBSTER'S—1789.—The interest of about £7,500 is applied for the education of twenty-one boys at the High School, and twenty-seven boys and twenty-seven girls at Mr Powrie's School. Factor, William Kerr, solicitor.

WILLIAM HENDERSON'S—1742.—The interest of £470 is applied to the education of about thirty poor boys and girls at the Sessional School. Patrons, the Provost, Bailies, Town Clerk, and Ministers. Factor, James Christie, British Linen Bank, to whom applications may be made.

GEORGE BROWN'S—1695.—The annual income is derived from a ground annual of £80 secured over property in the Overgate. The free income of this Mortification is divided—one-half is devoted to the maintenance of aged poor people—and the other to the education and maintenance of poor children. Each aged person receives £4 per annum so long as he or she hold their appointment, and each child also receives £4 per annum, and holds the bursary for four years. Patrons, the Provost, Bailies, Ministers, and Kirk Treasurer. Factor, William Kerr, solicitor.

MRS MARGARET PETRIE OR MORTON'S—1827.—The interest of the bulk of her fortune is destined for the maintenance of aged and indigent persons belonging to the town and parish of Dundee, those of the name of Petrie and Wighton having a preference, who each receive £4 and upwards per annum. There are upwards of 160 pensioners on the roll. Patrons, George Duncan, James Powrie, James Soote, Patrick Anderson, Thomas Bell, William Lowson, and John M. Baxter. Factor, Robert Walker, solicitor.

LORD PANMURE'S—1840.—The interest of £1,000, given to the Town by the late Lord Panmure, is paid annually to the Royal Infirmary.

JAMES CLARK'S—1744.—The interest of £539 is applied for maintaining and educating two boys. The Town Council presents a list of double the number of vacancies to Sir George Clark of Pennycuik, who from it elects the bursars. Factor, the Town Chamberlain.

EDWARD BURSARY FUND.—The interest of £150 is applied for the education of one or more bursars at the Classical and Mathematical Departments of the High School. Patrons, the Directors of the High School. Secretary, A. W. Cumming, solicitor, 1 Bank Street.

ALEXANDER EDWARD'S EDUCATIONAL BEQUEST.—The interest of £1,000 is applied for the education of bursars at the High School. Children of employees at Messrs A. & D. Edward & Company's Works to have a preference. Patrons, the Directors of the High School. Secretary, A. W. Cumming, solicitor, 1 Bank Street.

ANDERSON SCHOLARSHIP FUND.—The interest of £1,000 is applied for the endowment of two scholarships at the University of St Andrews, for High School pupils. Patrons, the Directors of the High School. Secretary, A. W. Cumming, solicitor, 1 Bank Street.

THE MISSES BAXTER OF BALGAVIES SCHOLARSHIP FUND.—The interest of £2,500 is applied for the endowment of two scholarships of £40 each, at the University of Edinburgh, in connection with the High School, for the encouragement of studies in mechanics and engineering. Patrons, the Directors of the High School. Secretary, A. W. Cumming, solicitor, 1 Bank Street.

POSTAL DIRECTORY.

POST-OFFICE, DUNDEE.—Post-Office Buildings, Top of Reform Street.

William Gibb, Postmaster.

On Week Days the Office is open for Postal business from 6.45 a.m. till 9 p.m.; and for Money Order, Savings Bank, Life Insurance, and Annuity business, from 9 a.m. till 6 p.m.

On Sunday the Office is open for Postal business from 9 till 10 a.m. only, but the Letter-Box remains open as on other days.

For Telegraph business there is attendance continuously during the day and night, both on Week Days and Sundays.

For Arrivals and Departures of Mails, see pages 86 and 87.

RATES OF POSTAGE.—INLAND LETTERS.*

The rates of postage when prepaid are as follows, viz.:—

For a letter not above 1 oz.†		-	-	1d.
,,	above 1 oz. but not above		2 oz.	1½d.
,,	,, 2 oz.	,,	4 oz.	2d.
,,	,, 4 oz.	,,	6 oz.	2½d.
,,	,, 6 oz.	,,	8 oz.	3d.
,,	,, 8 oz.	,,	10 oz.	3½d.
,,	,, 10 oz.	,,	12 oz.	4d.

A letter above the weight of 12 oz. is liable to a postage of 1d. for every ounce, beginning with the first ounce. Thus, a letter weighing between 14 and 15 oz. must be prepaid 1s 3d.

A letter posted unpaid is chargeable on delivery with double postage; and a letter posted insufficiently prepaid is chargeable with double the deficiency.

No letter may be above 18 inches in length, 9 inches in width, or 6 inches in depth, unless it be sent to or from one of the Government Offices.

COLONIAL AND FOREIGN LETTERS.

For the rates of postage on letters to the colonies and foreign countries, see page 88.

A letter posted unpaid, or paid only in part, directed to any place abroad to which prepayment is compulsory, is sent to the Returned Letter Office, to go back to the writer. Letters, however, for Australia and New Zealand, if prepaid as much as one rate (even although the prepayment be insufficient), are not detained, but are forwarded charged with the deficient postage and an additional rate.

A letter posted insufficiently prepaid for a place to which prepayment is optional is sent forward charged; the value of the stamps, however, being as a rule. taken into account.

No letter for any colony or foreign country may be above 2 feet in length or 1 foot in width or depth.

---

* Inland Letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

† If the weight be exceeded to the smallest extent, even though the balance be merely turned, the letter becomes liable to a higher postage. The same rule applies to Letters going abroad. To provide, therefore, for errors in scales, &c., it is well to allow a little margin, or to pay the postage of the next greater weight.

INLAND NEWSPAPERS.

Under the "Post Office Act, 1870," any publication fulfilling the conditions hereafter named can, upon payment of an annual fee of 5s., be registered at the General Post Office to pass within the United Kingdom as a newspaper for a postage of one halfpenny. Without such registration no newspaper is entitled to be sent through the post at less than the book rate of postage. The conditions are as follows:—

1st. The publication must consist wholly or in great part of political or other news, or of articles relating thereto, or to other current topics, with or without advertisements.

2nd. It must be printed and published in the United Kingdom, must be published in numbers at intervals of not more than seven days, and must be printed on a sheet or sheets unstitched.

3rd. The full title and date of publication must be printed at the top of the first page, and the whole or part of the title and the date of publication at the top of every subsequent page.

4th. A supplement must consist wholly or in great part of matter like that of a newspaper, or of advertisements, printed on a sheet or sheets, or on a piece or pieces of paper, unstitched; or wholly or in part of engravings, prints, or lithographs illustrative of articles in the newspaper. The supplement must in every case be published with the newspaper, and must have the title and date of publication of the newspaper printed at the top of every page; or, if it consists of engravings, prints, or lithographs, at the top of every sheet or side.

Registration for inland circulation includes registration for transmission abroad.

For each inland newspaper, whether posted singly or in a packet, the postage, when prepaid, is one halfpenny; but a packet containing two or more registered newspapers is not chargeable with a higher rate of postage than would be chargeable on a book packet of the same weight, viz., one halfpenny for every 2 oz. or part of that weight.

A newspaper posted unpaid, or a packet of newspapers posted either unpaid or insufficiently paid, is treated as an unpaid or insufficiently paid book packet of the same weight.

The postage must be prepaid either by an adhesive stamp, or by the use of a stamped wrapper.

No newspaper can now be sent through the post a second time for the original postage. For each transmission a fresh postage is required.

Every newspaper must be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, or sealing wax, postage stamp, or otherwise) or in a cover entirely open at both ends, so as to admit of easy removal for examination. If this rule be infringed, the newspaper is treated as a letter.

Every newspaper must be so folded as to admit of the title being readily inspected.

A newspaper or packet of newspapers which contains any enclosure except supplements is charged as a letter, unless the enclosure be such as might be sent at the book rate of postage, and the entire packet be insufficiently prepaid as a book packet, in which case it is allowed to pass.

A newspaper which has any letter, or any communication of the nature of a letter, written in it or upon its cover, is charged as an unpaid or insufficiently paid letter.

No packet of newspapers may be above 14 lbs. in weight, nor above two feet in length, one foot in width or depth.

COLONIAL AND FOREIGN NEWSPAPERS.

For the rates of postage to the colonies and foreign countries on newspapers registered for transmission abroad see page 88. Each newspaper is liable to a separate rate of postage, whether sent singly or in a packet, and, if above 4 oz. in weight, it is liable to two rates of postage: and so on.

The conditions of registration for transmission abroad are the same as those for inland transmission; excepting that for foreign transmission a newspaper may be published at intervals of thirty-one days; and that it may be printed (but not its supplement) on sheets stitched together. Moreover, prices current and market reports (but not private price lists or trade catalogues) may be registered as newspapers for foreign transmission, provided that they be published at intervals not exceeding thirty-one days.

The postage, *which must be prepaid*, cannot be paid in money.

All publications registered for transmission abroad *must be posted within eight days from the day of publication*, including that day; and any newspaper posted more than eight days after the date of publication, as well as any unregistered publication, must be prepaid at the book rates of postage.

The collected numbers issued during the month of a weekly or fortnightly publication are not allowed to pass as a monthly publication.

Every newspaper must be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp, or otherwise), or in a cover entirely open at both ends, so as to admit of easy withdrawal for examination.

Every newspaper must be so folded as to admit of the title being readily inspected.

No newspaper, whether posted singly or in a packet, may contain any enclosure except the supplement or supplements belonging to it.

There must be no writing or other mark on a newspaper sent abroad but the name and address of the person to whom it is sent; nor anything on the cover but such name and address, the printed title of the publication, the printed name and address of the publisher or vendor who sells it, and words indicating the date on which the subscription to the newspaper will end.

No packet of newspapers may be above two feet in length or one foot in width or depth.

INLAND BOOK POST.

The postage is one halfpenny for every 2 oz. or part of that weight.

A packet posted wholly unpaid is charged with double the book-postage; and if posted partially prepaid, with double the deficiency.

A book-packet may contain any number of separate books or other publications (including printed or lithographed letters), photographs (when not on glass or in cases containing glass or any like substance), drawings, prints, or maps, and any quantity of paper, or any other substance in ordinary use for writing or printing upon; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, is allowed, whether such binding, &c. be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, pens, or pencils, in the case of pocket-books, &c.; and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but the binding, rollers, &c., must not be sent as a separate packet.

But a book-packet may not contain any letter, or communication of the nature of a letter* (whether separate or otherwise), unless it be a circular-letter

* Entries merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

or be wholly printed; nor any enclosure sealed or in any way closed against inspection; nor any other enclosure not allowed by the preceding paragraph. If this rule be infringed, the entire packet is charged as a letter.

A book-packet may be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp, or otherwise), or in a cover entirely open at both ends, so as to admit of the contents being easily withdrawn for examination;* otherwise it is treated as a letter. For the greater security of the contents, however, it may be tied at the ends with string.

No book-packet may be above 5 lbs. in weight, nor above 1 foot 6 inches in length, 9 inches in width, or 6 inches in depth.

When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, book-packets may be kept back till the next despatch or delivery.

Circulars,—i.e., letters which are intended for transmission in identical terms to several persons, and the whole or the greater part of which is printed, engraved, or lithographed,—may also be sent by book post.

COLONIAL AND FOREIGN BOOK POST.

For the rates of postage on book-packets to the colonies and foreign countries, see page 88.

The limit of size for a book-packet addressed to any place abroad is 24 inches in length and 12 inches in width or depth.

Exceptions.—No packet for Algeria, Azores, Cape de Verd Islands, France, Madeira, or Portugal, or for Egypt, Syria, or Turkey, when sent by French Packet, must be above 18 inches in length, width, or depth.

COLONIAL AND FOREIGN PATTERN AND SAMPLE POST.

The Pattern and Sample Post is restricted to *bonâ fide trade patterns or samples of merchandise.* Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually patterns or samples, are not admissible.

As a general rule, the rates of postage for patterns are the same as those for books going abroad. See page 88.

Patterns or samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination. But samples of seeds, drugs, and such like articles, which cannot be sent in covers of this kind (but such articles only) may be posted enclosed in boxes, or in bags of linen, or other material, fastened in such a manner that they may be readily opened; or, in the case of samples of seeds, &c., for the United States of America, Holland and its possessions, Belgium, Denmark, Greece, Portugal and its possessions, and Switzerland, in bags entirely closed, provided such closed bags are transparent, so as to enable the Officers of the Post Office readily to satisfy themselves as to the nature of the contents.

There must be no writing or printing upon or in any packet except the address of the person for whom it is intended, the address of the sender, a trade mark or number, and the price of the articles.

CARD POST.

Post Cards, whether official or private, having a halfpenny stamp impressed upon them (adhesive stamps not being accepted in payment of the postage) may be transmitted between places in the United Kingdom with letters written upon the back.

* In order to secure the return of packets which cannot be delivered, the names and addresses of the senders should be printed or written *outside*, thus—"From ——— of ———."

The front (or stamped) side is intended for the address only, in addition to the printed words "Post Card" and "The address only to be written on the side" There must be nothing else written, printed, or otherwise impressed on it, nor must there be any writing or printing across the stamp. On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached; nor may the card be folded, cut, or otherwise altered. If any one of these rules be infringed, the card will be charged 1d on delivery.

When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, Post Cards may be kept back until the next despatch or delivery.

No card other than one of those issued by the Government, or a private card impressed with a halfpenny stamp at the Office of Inland Revenue, will pass under a halfpenny stamp, if it bear on it a written communication of the nature of a letter.

LETTERS, &c., BY PRIVATE SHIP.

Letters intended to be sent by Private Ship must be addressed "By Private Ship;" and if by a particular vessel, the name of the ship must be added.

The postage of a letter by Private Ship to Ascension, the Cape of Good Hope, Natal, and St Helena, is 4d per ½ oz.; and to the West Indies (British), 3d per ½ oz.

REGISTRATION.

The fee for registering a letter, newspaper, or book-packet passing between any two places in the United Kingdom is 4d.

The same fee is chargeable for the registration of letters, newspapers, book-packets, and patterns to the British Colonies, United States, Germany, Italy, Switzerland (via Belgium), and (when sent in closed mails) to the British Post Offices in Egypt and Constantinople.

To all other foreign countries *only letters or packets paying the letter rate can be registered.*

Every letter to be registered should be presented at the counter, and a receipt obtained for it, and should on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box it will, *if directed to any place in the United Kingdom or the British Colonies,* be liable to a registration fee of 8d, instead of the ordinary fee of 4d.

The registration of a packet makes its transmission much more secure, inasmuch as, under ordinary circumstances, a registered packet can be traced through its whole course; and thus the loss of a registered packet is a very rare occurrence. Nevertheless large sums of money or other articles of great value should not be sent through the Post, even if the packet be registered; as the machinery of the Department is not arranged with a view to such transmissions. By law, the Post Office is not responsible for the safe delivery of registered packets; though any officer who may neglect his duty on this point will be called to strict account. Sent in *unregistered* letters, valuable articles are exposed to risk, and offer a temptation which ought not to be created; and the Department cannot in any way undertake the safe conveyance of such packets. All inland or colonial letters, therefore, which contain coin, and all inland letters which contain watches or jewellery, even though they be posted without registration, are treated as registered, and charged on delivery with a double registration fee of 8d in addition to the ordinary postage; and any such letters which cannot be registered in time to be forwarded by the Mail for which they are posted, are detained for the next despatch. Even if the letter do not contain any article of intrinsic value, it should, if it be very important, be registered.

MISCELLANEOUS REGULATIONS.

The Post Office is not, by law, responsible for any loss or inconvenience which may arise from the non-delivery, mis-sending, or mis-delivery of any letter, book, or other postal packet (even if the packet be registered); nor is the Post Office responsible for any injury which a packet may sustain during its transmission.

To guard against such injury all postal packets which are likely to suffer from stamping or from great pressure should be placed in strong covers; and even with this precaution no fragile article should be sent through the Post. It should be remembered that every packet has to be handled several times; that it is exposed to considerable pressure and friction in the mail bag; and that, whenever the bag has in the course of its transmission to be transferred by means of the railway apparatus, the risk of injury is much increased.

Postmasters are not allowed to return any letter or other packet to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon.

To discourage the transmission of coin by post, Postmasters, at whose Offices Money Order Business is transacted, are permitted, though not compelled, to purchase postage stamps from the public (provided the stamps be not soiled or otherwise damaged), at a charge of 2½ per cent.

To facilitate the delivery of letters, a letter-box should be affixed to every house-door.

POST OFFICE TELEGRAPHS.

The charge for telegrams throughout the United Kingdom, including the Channel Islands and the Isle of Man, but excepting the Scilly, Orkney, and Shetland Islands, is 1s. for the first twenty words, and 3d. for every additional five words, *i.e.*, for every additional group of not more than five words; the names and addresses of the sender and receiver not being counted.

The charge for telegrams to the Scilly Islands is 3s 6d for the first twenty words, and 9d for every additional five words; and to the Orkney and Shetland Islands, 2s for the first twenty words, and 6d for every additional five words; except to Moss Bank, Culla Voe, Uya Sound, and Balta Sound, in Shetland, the rates to which are 3s. for the first twenty words, and 9d. for every additional five words.

When the terminal telegraph office, *i.e.*, the office from which the message is delivered, is a Head Post Office, the amount paid for the transmission of a message covers the cost of delivery within the town postal delivery of that office. But when it is not a Head Post Office, the message is delivered free only within a radius from it of one mile.

When the addressee resides beyond the above-described limits, porterage is charged at the rate of 6d per double mile (that is, a mile out and a mile back), or any part thereof, provided the whole distance to be traversed does not exceed three miles out and three miles back. For instance, if the addressee's residence is a mile and a quarter from the terminal telegraph office, and also beyond the free delivery, the charge for porterage would be 1s; if the distance is above two miles and under three, 1s 6d.

If the addressee resides at a greater distance than three miles from the terminal telegraph office, porterage is charged for delivery by mounted messenger at the rate of 1s per double mile, except in the case of telegrams for Ireland, where the charge is only 8d per double mile.

MONEY ORDERS.

The public are recommended, when applying for Money Orders, to use the printed "Application Forms," prepared expressly for the purpose, which are

supplied gratuitously at all Money Order Offices. These forms save time, and afford greater security, than verbal messages, against mistakes.

The commission on inland Money Orders is:—

For sums under 10s,.....1d.	For sums of £5 and under £6,.....7d.
„ of 10s. and under £1,.....2d.	„ „ £6 „ „ £7,.....8d.
„ „ £1 „ „ £2,.....3d.	„ „ £7 „ „ £8,.....9d.
„ „ £2 „ „ £3,.....4d.	„ „ £8 „ „ £9,.....10d.
„ „ £3 „ „ £4,.....5d.	„ „ £9 „ „ £10,.....11d.
„ „ £4 „ „ £5,.....6d.	„ „ £10,.....1s.

No order is allowed to contain a fractional part of a penny.

No Money Order can be issued, unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter, and the payee, together with the remitter's address. In the case of Colonial and Foreign Orders the full address of the payee must be given.

Exceptions.—1st. When the remitter directs at the time of issue (which he is at liberty to do), that the order, by being crossed like a cheque, be made payable only through a bank, it is left to his option to give or withhold the name of the payee. 2d. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient. 3d. The usual designation of a firm is sufficient, except in the case of a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company."

Money Orders are issued in the United Kingdom on the following colonies, British agencies, and Foreign countries:—

Alexandria	Gibraltar	Rio de Janeiro
Bahia	Gold Coast	St Helena
Berbice (New Amsterdam)	Holland	Shanghai
Belgium	Honduras	Smyrna
British Columbia	Hong Kong	South Australia
Callao	India	Straits Settlements
Cape of Good Hope	Italy	Suez
Canada	Malta	Switzerland

Demerara (Georgetown)	New South Wales	Victoria
Denmark	New Zealand	West Coast of Africa
Falkland Islands	Nova Scotia	West Indies
France (Paris only)	Pernambuco	Western Australia
Germany	Prince Edward Island	Yokohama
	Queensland	

The Scale of Commission for Orders payable abroad is as follows:—

For sums not exceeding.....	£2 s. d.	£5 s. d.	£7 s. d.	£10 s. d.
If payable in Belgium, Denmark, France, Germany, Holland, Italy, Switzerland, Gibraltar, Malta, Egypt, or Constantinople,.....	0 9	1 6	2 3	3 0
If payable in any other place abroad (including most of the Colonies) authorised to transact Money Order business with this country,.....	1 0	2 0	3 0	4 0

POST OFFICE SAVINGS BANK.

The Post Office Savings Bank is open for bank business during the same hours as for Money Orders.

Deposits of one shilling, or of any number of shillings, or of pounds and shillings, may be made by any person at the Post Office Savings Banks, provided

that such depositor shall not make deposits amounting to more than £30 in any year ending the 31st December, or make any further deposit when the amount standing in his name, exclusive of interest, exceeds £150. When any Depositor's principal and interest amount together to £200, all interest will cease so long as the balance of the account continues to amount to the said sum of £200

GOVERNMENT INSURANCES AND ANNUITIES.

The Postmaster-General is empowered, under the Act 27 and 28 Victoriæ, cap. 43, to insure the lives of persons of either sex, between the ages of 16 and 60, for not less than £20 or more than £100. He is also empowered under the same Act to grant Immediate or Deferred Annuities of not more than £50 on the lives of persons of either sex, and of the age of ten years and upwards.

The persons whose lives are insured, or to whom Annuities are granted by the Postmaster-General, have direct Government security for the payment of the money, at the proper time.

Forms of proposals for the Insurance of Lives and the purchase of Annuities, and all necessary information on these subjects may be obtained at the Post Office.

SHUTTLE AND PICKER MAKING.

IMPORTANT TO

MANUFACTURERS AND MANAGERS

OF

POWERLOOM FACTORIES.

GEORGE LANGLANDS,

161 HILLTOWN,

BEGS to call attention to the New Patented WEFT DRAG for SHUTTLES. The advantages of the Drag is its simplicity, which renders it almost impossible of being disarranged. It gives a uniform tension to the Weft Thread, gives way to inequalities and lumps, thereby improving the Selvedge of the Cloth. It saves the Selvedge Threads from being broken, is easily threaded, and the Weaver cannot put the thread by it.

LANGLANDS & JOHNSTONE are the Sole Patentees.

The SHUTTLES can only be supplied by Mr LANGLANDS, at his Works,

161 HILLTOWN, or COMMERCIAL STREET, Maxwelltown, Dundee.

G. L. thanks his numerous Customers for the liberal support he has enjoyed since commencing Business, six years ago, and begs respectfully to intimate, that, with acquired experience, he is in a position to compete with any in the Trade for First-Class Workmanship and Materials, with Moderate Charges. So as to merit a continuance of that support, he has greatly enlarged his Premises, and put in New Tools, and is now in a position to fulfil Orders entrusted to him with greater despatch than hitherto.

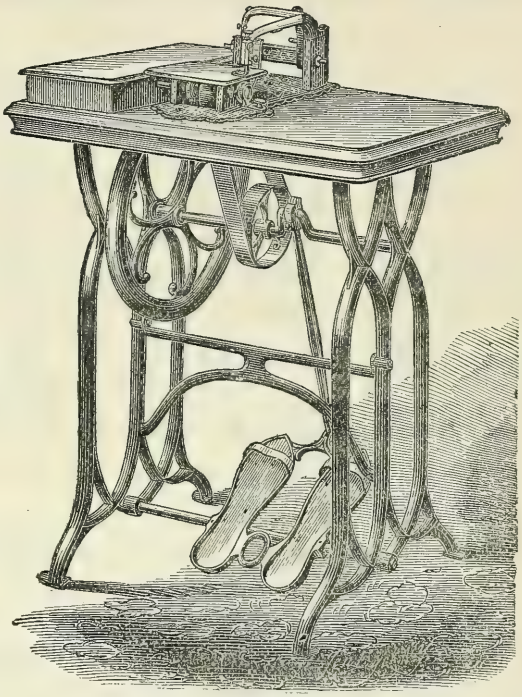
THE WHEELER & WILSON



HELP FOR WOMEN.

OUR sisters, and wives, and daughters, have, where the Family is large, and a good stock of clothes is required, and the family exchequer is limited, a terrible amount of drudgery to endure. They have no time for reading, for attending lectures, for self-improvement. Very often they are denied the ordinary intercourse of society; ofttimes many a mother in the middle ranks of life is little better than a slave. With the invention of the WHEELER & WILSON Machine, women are set free, free from the slavery of the gusset and band, free for the higher modes of life, and for the nobler purposes of creation.

THIS CORPORATION was formed in 1870, for the application of the Mutual Principle (which has been eminently successful in Life and Marine) to Fire Insurance, it being evidently the most equitable system, as all the profits are divided amongst the Insured who are directly interested in them, and not paid as dividends to Shareholders, as in the case of Proprietary Offices.

The principal distinctive features of this Corporation are :—

The division of all Profits amongst the Members.
The very low per centage of Working Expenses.
Discounts on Premiums and Allowances for approved Appliances for the Prevention and Extinction of Fire.
Freedom from the restraint of the Tariff System.

Prospectuses, Rates, and Surveys, may be had on application to the above Offices, or to

THE ASSOCIATION transacts every description of LIFE ASSURANCE and ANNUITY BUSINESS; and also secures PROVISIONS for OLD AGE. During 1873 there were issued 596 NEW POLICIES, the SUMS ASSURED thereby amounting to £447,630, and producing in NEW PREMIUMS, £14,604.

SECURITY.—The SUBSCRIBED CAPITAL of the ASSOCIATION amounts to ONE MILLION STERLING, of which **£70,000** has been PAID UP. The ACCUMULATED FUNDS amount to upwards of **£820,000,** SECURELY INVESTED, and yielding an AVERAGE RETURN of 4¾ PER CENT.

PROFITS ascertained and divided every FIVE YEARS; whereof NINE-TENTHS (90 PER CENT.) are appropriated to the ASSURED. At the FIFTH INVESTIGATION (Christmas, 1870), the NET LIABILITIES to the ASSURED amounted in value to **£576.329**, and the NET ASSETS (without taking account of the PROPRIETORS' CAPITAL), to **£653.397**, or FULLY 13 PER CENT. MORE THAN THE LIABILITIES. Out of the Profit of **£77.068** thus ascertained to have arisen during the preceding period of FIVE YEARS, REVERSIONARY BONUS ADDITIONS at the rate of

One Pound Ten Shillings per cent. per annum

were made to all SUMS ASSURED by POLICIES effected on the PARTICIPATION SCALE for the WHOLE TERM OF LIFE;—EQUIVALENT ADDITIONS being also made to the ENDOWMENT ASSURANCES.

BASIS OF VALUATION.—CARLISLE TABLE OF MORTALITY, combined with THREE PER CENT. INTEREST;—only the "PURE" or "NET" PREMIUMS being taken into account, and the whole "LOADING" RESERVED as a provision for future contingencies. The value of the "LOADING" thus reserved at Christmas, 1870, was **£247,378**; a Sum nearly equal to ONE-HALF of the NET LIABILITY of the Office under its ASSURANCE CONTRACTS.

THE SIXTH INVESTIGATION will take place at CHRISTMAS, 1875, when POLICIES effected during 1874 at FULL RATES of PREMIUM will rank for

Two Years' Bonus Additions.

NON-FORFEITURE POLICIES—Under this system, PREMIUMS are payable only for a LIMITED NUMBER OF YEARS, and each Payment (under certain conditions) secures an EQUIVALENT AMOUNT of ASSURANCE, WITHOUT RISK OF FORFEITURE.

WEST OF ENGLAND
FIRE & LIFE INSURANCE COMPANY.

ESTABLISHED IN EXETER, 1807.

AND EMPOWERED BY SPECIAL ACTS OF PARLIAMENT.

Secretary and Actuary—CHARLES LEWIS, F.I.A., F.S.S.

CAPITAL, £600,000.

The WEST OF ENGLAND OFFICE, *which has had an Agency in Dundee for half a century, is so well known here, as well as over the United Kingdom, that the Agents can, with the utmost confidence, solicit the support of their friends by favouring them with a share of their Insurance business.*

LIFE DEPARTMENT.

THIS Company gives the security of an ample Capital and Accumulated Fund of about ONE MILLION AND A HALF STERLING. Annual Revenue nearly £200,000 *from the Life Branch alone.* Four-fifths of the Profits appropriated to all Policies of £100, and upwards, *and without responsibility of partnership.* Amount paid for Life Claims since the Office was established, about £3,750,000. Bonuses may be added to the sum insured—or present value in cash may be received—or an equivalent reduction of the future Premium obtained—at the option of Assured. Assurances at lower rates of Premium, without participation.

LOANS granted by the Company on Life Policies, on approved personal security, and Advances also made on the security of Policies of adequate value.

VOLUNTEER CORPS.—Insured are at liberty to serve in any Volunteer Corps, within the United Kingdom, without prejudice.

DAYS OF GRACE.—By the condition of the Company's Policies, *invariably acted upon for upwards of Fifty Years*, the period for Payment of Premiums is not only extended to the "days of grace," without forfeiture of the Policies, but the sums assured are recoverable, the same as if the claim had arisen at any time previously. No charge for Policy Stamps or Medical Fees.

Agents will be happy to supply Life Proposal Sheets with full Tables of Rates.

FIRE DEPARTMENT.

Insurances effected on Property in any part of the United Kingdom at the ordinary rates. Manufactories and Risks of a similar nature insured on the *most favourable terms.* Losses by explosion of gas and by lightning are made good. Steam Thrashing Machines allowed on Farms without extra charge. Policies transferred from other Offices without expense. Claims settled promptly and with liberality.

On receipt of FIRE orders, Interim Receipts can be immediately issued, and when desired a surveyor will be sent to inspect, and assist in specifying the risk.

As the entire abolition of Duty is in effect equivalent to a reduction by about one-half of the hitherto annual expense of Fire Insurance on ordinary risks, a large increase of the sums formerly insured is generally being made.

THE EQUITABLE LIFE ASSURANCE

SOCIETY OF THE UNITED STATES.

ESTABLISHED IN 1859.

ASSETS EXCEEDING £4,500,000 STERLING

Have been accumulated and invested only in *First-class Convertible Securities*, as restricted by the Insurance Laws of the State of New York. Such Investments are beyond the reach of MONETARY DISTURBANCE, and complete protection to Policy-holders is thus assured.

The Whole of the Profits are reserved for the Assured.

The business of this Society is carefully distributed over the continent of North America and the British Isles; *an additional and exceptional safety* is consequently guaranteed to the insured by a broad basis of operations.

The greater earning power of money in the United States enables THE EQUITABLE of New York to offer to its patrons UNEQUALLED ADVANTAGES.

A Popular Scheme of Life Insurance, on

THE TONTINE PLAN,

Has originated with, and is granted by, THE EQUITABLE, which, upon a principle of deferred bonus adds very considerably to the proportionate profit of those holding these Policies.

Estimated Results at the end of 20 Years on the Tontine Plan.

Age.	Annual Premium.			Total Premiums Paid.			Cash Value of Policy.			Equivalent Value in Paid-up Policy.			Annuity during Life, and the £1000 at Death.		
	£	s.	d.	£	s.	d.	£	s.	d.	£	s.	d.	£	s.	d.
25	19	17	6	397	10	0	735	0	0	1950	0	0	30	14	0
35	26	7	6	527	10	0	1059	0	0	2160	0	0	57	10	0
45	37	19	2	759	3	4	1667	0	0	2670	0	0	135	4	0

Thus at the age of 25 the assured will pay in premiums £397, 10s., when the cash value of the Policy will, by the same estimate, be £735 or equivalent value in a paid-up Life Policy £1950, or Annuity of £30, 14s. during life, and the £1000 to heirs at death.

THE EQUITABLE LIFE ASSURANCE SOCIETY of New York has received an unqualified indorsement from leading Actuaries in London, expressing opinions of the soundness of the Institution, of its good management, and of its full title to confidence, in an

IMPORTANT DOCUMENT,

Which ought to be read by every person desiring a Life Insurance, as it shows that THE EQUITABLE furnishes, on the most favourable terms, a perfect security for the future, which is of great importance to those depending upon their insurance policies for the ultimate support of their families. This document has been recently published by the Society, and can be had on application to any of the Society's Agents, or of

This Office is distinguished by

1. THE SMALL OUTLAY required to be made by its Policy-holders.
2. Its SPECIAL SYSTEM of CASH BONUSES (*see* CLASS A *below*).
3. Its LARGE BONUS ADDITIONS (*see* CLASS B *below*).
4. UNUSUAL PROTECTION and FREEDOM enjoyed under its Policies, together with NON-FORFEITABLE PREMIUMS. (*See* PROCTECTIVE REGULATIONS *below*).

The Association has two Classes of Policies, A and B, having distinctive arrangements as regards Bonuses, &c.

CLASS A.

At an early stage of the Policy, the BONUSES are applied in Cash every year for the immediate personal benefit of the Policy-holder himself, and are, in fact

A Life Annuity while the Policy subsists.

CLASS B.

The BONUSES are declared every Five Years, and are in the form of Contingent Additions to the Sums Assured, and reserved for those who do not die before the average period. These Bonuses are accordingly three or four times larger than the ordinary Bonuses of other Offices.

PROTECTIVE REGULATIONS.

REGULATIONS giving the utmost protection to the Policy-holders have always been conspicuous in the System of the ASSOCIATION.

The CONDITIONS of the Policies are unusually favourable as regards Indisputability—Non-Forfeiture—Residence, etc. In Class B the Assured may reside or travel IN ANY PART OF THE WORLD.

The UTMOST PROTECTION is afforded under accidental omission, or inability, to pay premiums; and the Policy-holder's convenience is met, in as far as possible, by arrangements for postponing payments; by loans to the extent of the Value of the Policy; Reduction of Assurance to a smaller amount, &c.

IN SURRENDERING the whole or a portion of his Assurance, the Policy-holder, after three years' premium payments, is allowed an ample value in cash. Further,

IN DISCONTINUING his payments, he is completely protected against loss by the NON-FORFEITABLE PREMIUM SYSTEM, and now extended to almost all kinds of Assurances with participation in profits.

MUTUAL LIFE ASSURANCE.

SCOTTISH PROVIDENT INSTITUTION.

No. 6 ST ANDREW SQUARE, EDINBURGH.

ESTABLISHED 1837. INCORPORATED 1848.

SHORT STATEMENT OF PRINCIPLES.

INSTEAD of charging rates admittedly higher than are necessary, and afterwards returning the excess, or a portion of it, in the shape of periodical Bonuses, it gives from the first as large an Assurance as the Premiums will with safety bear—reserving the whole Surplus for those Members who live long enough to secure the common Fund from loss on account of their individual Assurances.

A Policy for £1200 to £1250 may thus in many cases be had for the Premium charged generally to assure £1000; while the effect of *reserving* the surplus has been that Policies have been largely increased. In a few cases, Policies which have shared at the whole four Septennial Divisions have been doubled.

Examples of Premiums, by different modes of Payment, for £100 *at Death (with Profits).*

Age.	Payable for Life.	Limited to 14 Payments.	Limited to 21 Payments.
25	£1 18 0	£3 7 3	£2 12 6
*30	2 1 6	3 11 2	2 15 4
35	2 6 10	3 16 11	3 0 2
†40	2 14 9	4 5 2	3 7 5
45	3 5 9	4 16 4	3 17 6
50	4 1 7	5 12 4	4 12 1

* A person of 30 may thus secure £1000 at Death, by a yearly payment, *during life*, of £20, 15s. This Premium, if paid to any other of the Scottish Mutual Offices, would secure £800 only, instead of £1000.

† At age 40, the Premium *ceasing at age* 60, is, for £1000, £33, 14s 2d, being about the same as most Offices require during the whole term of life.

The ACCUMULATED FUNDS exceed £2,250,000. Notwithstanding its moderate rates, no Office of the same age has so large a Fund, or shows so large a yearly increase. The increase in the last seven years has exceeded One Million.

INSURANCES against LOSS by FIRE are effected by the PHŒNIX COMPANY upon every description of PROPERTY, in every part of the World, on the most favourable terms.

The promptitude and liberality with which its engagements are always met by this Company are well known, and the importance of its relations with the Public may be estimated from the fact, that, since its establishment, it has paid more than *Nine Millions and a Half Sterling* in discharge of Claims for Losses by Fire.

N.B.—The private fortune of every individual Shareholder in the Company is responsible for its engagements, and no person insured in this Office is liable for the losses of others, as is the case in Contribution Societies.

Insurances of ordinary description now charged at 1s. 6d. per £100, being only Half the cost hitherto payable.

Every element of Stability and Profit is found in the constitution and practice of the Society. The estimation in which it is held by the public is evident from the great and increasing New Business which is annually transacted. During the Septennial Bonus Period, ending December 1873,

NEW ASSURANCES

WERE ISSUED TO THE AMOUNT OF

SEVEN MILLIONS STERLING.

It is important to observe that this extraordinary result has been attained without establishing a single agency out of the three Kingdoms.

AS A PURELY MUTUAL OFFICE

the resources of the Society are not burdened with the payment of dividends to Shareholders. It reserves all Surplus for division among the Policyholders alone, who thus have the benefit of large sums which in Proprietory Offices are withdrawn from the divisible Fund.

SCOTTISH NATIONAL
INSURANCE COMPANY.

ESTABLISHED 1841.

THE SCOTTISH NATIONAL INSURANCE COMPANY has carried on business successfully since 1841; has issued Life Policies for FIVE AND ONE HALF MILLIONS sterling; and has paid under such Policies, besides Bonus Additions, about SIX HUNDRED AND THIRTY THOUSAND POUNDS.

The affairs of the Company have been repeatedly subjected by the Directors to rigid Investigation, and the profits ascertained have been divided by way of Bonus. In October 1872 the profits ascertained to have arisen, yielded an addition to the Policies entitled to share at the rate of **£6** *per Cent. for the four years preceding.*

FIRE INSURANCE.

Every Description of RISK accepted at the LOWEST REMUNERATIVE RATES.

LIFE ASSURANCE—(PARTICIPATION BRANCH).

The WHOLE of the PROFITS divided among the Policyholders, the Dividends of the Shareholders depending solely on the other departments of the Company's business, in terms of its Acts of Incorporation.

The entire Expenses of Management are less than $7\frac{3}{4}$ per cent. of the revenue, or less than $3\frac{1}{4}$ per cent. excluding commission paid to agents.

The Bonuses may either be added to the amount of the Policy, or applied to reduce the future Premiums, or paid in Cash to the Policyholder.

The following is a specimen of the Rates of Premium, which are lower than those of any other Scotch office that admits the Policyholder to an early Participation in the entire Profits:—

THE EDINBURGH LIFE
ASSURANCE COMPANY.

THE COMPREHENSIVE NON-FORFEITURE SYSTEM of this Office, now extended to all ordinary Policies, entirely obviates loss to those of the Assured who at any time decide on discontinuing payment of their Premiums.

THE SPECIAL BONUS SYSTEM secures an increasing share of Profit, as the Policies advance in age. The Bonuses paid have for some years averaged 35 per cent. on Sums Assured, while in the case of very good lives they have frequently exceeded 100 per cent.

THE RATES OF PREMIUM are extremely moderate, notwithstanding the large Bonuses secured by the Company's special System.

PARTNERSHIP ASSURANCES of any amount are arranged for Business Firms.

Life Business only is transacted.
